In August 1956, a target harbor for the Navy was located on Chishov Island. Picture 1 shows targets which have radar reflectors in the top. It was said that installations near Olukhovsk (Arkangel Pier) were exclusively to be reserved for the Soviet Navy. A fuel service station is located behind the coal dumps. Picture No 2 shows the Arkangel Pier.

Comment. The installation of the target harbor on Chishov Island is known. Vessels of the White Sea Flotilla were frequently seen there. Picture No 2 is an interesting addition to available information on the Arkangel Pier. For photographs, see Annex.
